

*Connect where you never
thought possible*

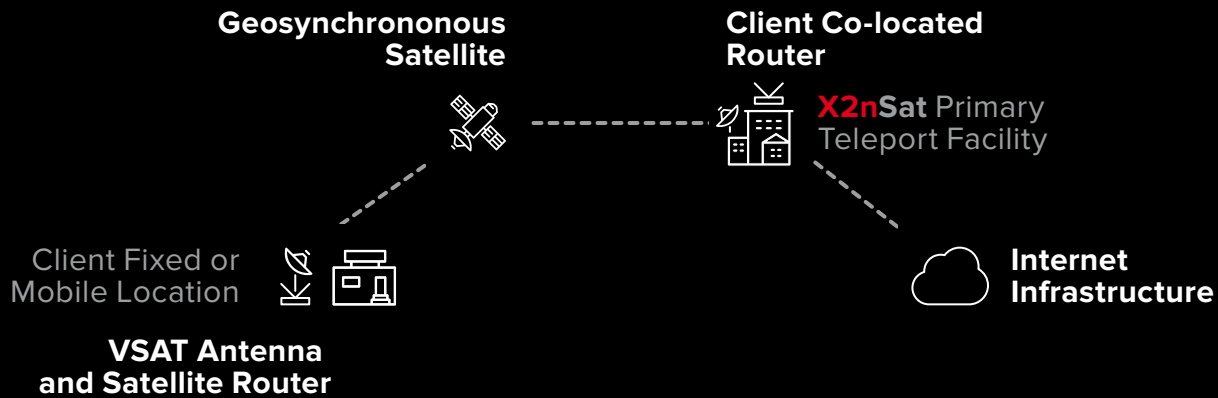

WIRELESS BROADBAND CONNECTIVITY

Today, businesses everywhere demand reliable, high-speed broadband connectivity. Unfortunately, not everywhere is equipped to offer it. X2nSat can provide connectivity anytime, anywhere. Regardless of the number of locations, X2nSat can support all of your organization's voice and data needs.

X2nSat Wireless Broadband Offers:

- Speeds up to 23 Mbps
- Nationwide availability
- Mobile connectivity for cars, boats, or airplanes
- Short-term or long-term contracts
- VoIP Support
- Quick setup services for special events

“Through X2nSat’s exclusive technology we are able to provide voice, data, fax, and broadband Internet services to the most rural areas within our region.”

— Rusty Moore,
Big Bend Telephone Company

The X2nSat Advantage

Serving the data needs of clients since 1996. X2nSat is a full-service Satellite Network Operator that owns, operates, and maintains multiple satellite networks which provide service anytime, anywhere. We offer enterprise solutions with the flexibility to meet specific customer needs.

In order to maintain 99.9% reliability, X2nSat operates a domestic 24/7/365 Network Operations and Customer Response Center, located at both its primary satellite gateway in Petaluma, California and its secondary Satellite Gateway in Las Cruces, New Mexico.

TO LEARN HOW X2NSAT’S WIRELESS BROADBAND CONNECTIVITY SOLUTIONS CAN BE AN IMPORTANT PART OF YOUR ORGANIZATION, CALL 888.4.X2NSAT OR EMAIL SALES@X2N.COM TO REQUEST A CONSULTATION.
